Safety issues should be studied relative to other improvements in this area and changes incorporated into future signs and/or road improvements.

Construct a rear service road behind Ace and Marquette Vet. Clinic.

Combine 2 drives between Larue's and CITGO gas station.

Improve turning radius on intersecting diagonal roads such as Corning.

Continue radial street pattern at intersection of US-41 and M-28.

An intersection operations study is recommended at Cherry Creek Road to provide safer left-turn opportunities.
